EDUCATION

Cochin University of Science and Technology (CUSAT) — Kochi, Kerala

2024-2028

Bachelor of Technology in Information Technology

CGPA: 8.94/10

TECHNICAL SKILLS

Languages: C++, C, JavaScript, HTML, CSS

Frontend: React.js, Responsive Web Design, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL

Authentication: JWT, bcrypt, Role-Based Access Control

Tools: Git, GitHub, VS Code, Vercel, XAMPP

Core: Data Structures and Algorithms, OOP, API Development, Database Design, Authentication, Debugging

PROJECTS

Blood Link — Online Blood Donation Management System

Node.js, Express.js, MongoDB Atlas, Mongoose, JWT

- Developed a full-stack blood donation management platform connecting donors and hospitals through role-based workflows.
- Implemented donor and hospital authentication with JWT-based authorization and protected backend routes.
- Built workflows for blood requests, donor eligibility, donation tracking, request acceptance, and waiting-list management.
- Designed REST APIs using Node.js and Express.js with MongoDB Atlas and Mongoose for persistent data management.
- Deployed the application for real-world testing and accessibility.

[Live](#)

Personal Portfolio

HTML, CSS, JavaScript, React, Responsive Design

- Developed and deployed a responsive personal portfolio showcasing technical skills, projects, and development experience.
- Implemented responsive layouts and interactive UI components for desktop and mobile users.

[Live](#)

Student Portal

HTML, CSS, JavaScript, PHP, MySQL, PDO

- Developed a student portal with registration, authentication, session management, and dashboard functionality.
- Integrated PHP with MySQL using PDO for database operations and authenticated student dashboard access.

PocketFlow — Personal Finance Management Application

JavaScript, React, Backend APIs, Database

- Designed a personal finance application for tracking income, expenses, accounts, transfers, debts, budgets, and analytics.
- Designed authenticated user workflows and backend data persistence for financial transaction management.
